Seesaw

- Digital Portfolio for student work
- Application for Apple and Android devices
- Web-based option available
How can I use it?

You can upload student images, drawings, videos, audio, or even let students provide feedback on other student's work.

How much time does it take to set up?
You can set up an account and import your class list in 5-10 minutes.
How much time does it take to set up?

You can set up an account and import your class list in 5-10 minutes.
I only have one iPad

It only takes one iPad or one device to use! You can record, video, or upload student work as you conference with them!

Is it safe to use?
You can share specific student portfolios with parents, but you approve all uploads into the app/website.

How can I start using it?
simply set up an account, add your student’s names, and you can upload their work, a recording, or a video today to start their portfolio.
